# Surrendered Ownership Evidence for Vehicles Permanently Destroyed

## Information

**This form is for use by a licensed metal recycler only.** Licensed dealers and licensed used automotive parts recyclers must use the *Surrendered Ownership Evidence for Vehicles to be Dismantled, Scrapped, or Destroyed* (Form VTR-340).

In accordance with Texas Administrative Code, Section 217.86, a metal recycler must submit this form, along with the properly assigned ownership evidence for each listed motor vehicle, to a Texas Department of Motor Vehicles (TxDMV) Regional Service Center before the 61st day after the metal recycler permanently destroys the motor vehicle.

If a title document is the ownership evidence for the motor vehicle, the person or entity transferring the motor vehicle must complete the assignment on the title as the “seller.” The seller must disclose the odometer reading if the vehicle is subject to odometer disclosure, and the metal recycler must acknowledge the disclosure as the “purchaser.”

Any license plates and registration stickers removed from the motor vehicles must be destroyed.

A metal recycler should keep, on the business premises, a record of each vehicle that is dismantled, scrapped, or destroyed, and a photocopy of the front and back of the ownership evidence submitted to the department until the fourth anniversary of the date that this form was submitted to the department.

**Note: A vehicle reported on this form is considered a nonrepairable motor vehicle and cannot be repaired, reconstructed, made operable, or retitled.** The body and frame of a nonrepairable motor vehicle cannot be used to assemble, build, construct, rebuild, or reconstruct another motor vehicle. The vehicle record will be notated accordingly.
